Record notable events while driving or capture any suspicious behavior near your parked and locked vehicle

[1] Prices listed do not include Destination and Order Fees, taxes and other fees. Vehicle shown has upgrades that will increase the price. Subject to change. Prices including the Destination and Order fees but excluding taxes and other fees are as follows: Model 3 Rear-Wheel Drive starts at $38,630, Model 3 Premium Rear-Wheel Drive starts at $44,130, Model 3 Performance All-Wheel Drive starts at $56,630.

[2] Actual range may vary based on factors such as speed, weather conditions and elevation change.

[3] With rollout subtracted.

[4] Range added in 15 minutes is based on vehicle efficiency at a constant highway speed of 65 mph. Actual driving range and charging performance may vary depending on several factors including Supercharger type, vehicle configuration, state of charge, battery temperature, speed, weather and elevation change, among others.

[5] Currently enabled features require active driver supervision and do not make the vehicle autonomous. The activation and use of these features are dependent on development and regulatory approval, which may take longer in some jurisdictions.

[6] Subscription starts after 1 mo trial. Price shown excludes tax and is billed separately each month until cancelled. Price subject to change.

[7] Estimate based on 30 kWh energy use per day. Results may vary based on your actual energy use. 11.52 kW is maximum power.
